

## Make Your Own Nature Crowns

What a perfect time to do an art activity that involves getting outside, going on a flower and leaf treasure hunt!

Spring is on the way and going for a walk (even just in your own backyard) getting some sunshine and collecting beautiful things is a great way to spend your morning.

After you've gathered a nice collection, simply download and print the face template on the second page then carefully arrange and glue your natural treasures on top of the head, just like a crown!

If you'd like you can finish your artwork off by colouring in or painting your person.

**HAVE FUN!**
