

ARTPLAY

Rose's Red Boots

17 September 2025

This week, we will be making a kite.

Materials

- Colour copy paper (cut into diamonds x 17)
 - no longer than a paper straw
- Paper straws (flattened, glued and taped)
 - However you can simplify and have no supports.
- The paper straws will be flattened, glued and taped.
- Red twine:
 - to make a little loop at the top point of the kite (so the kids have a little handle so they can run around with it). Precut and staple
 - to make a tail (stapled) to bottom point of kite. Tie crepe paper around it - or just 5 pieces of crepe paper stapled.
- Stapler
- Sticky tape
- Dots for decoration, cellophane and tissue paper
- Glue

Method

- Attach tail and handle using stapler or sticky tape
- Decorate
